

INTRODUCTION TO

Power Corporation

September 2024

POWER CORPORATION
OF CANADA

Forward looking statements and disclosures concerning public investees

For definitions of capitalized terms used herein, see "Abbreviations".

Forward Looking Statements

In the course of today's meeting, representatives of the Corporation may make, in their remarks or in response to questions, and the accompanying materials may include, statements containing forward-looking information.

Such forward-looking statements are based on certain assumptions and reflect the Corporation's current expectations, or with respect to disclosure regarding the Corporation's public subsidiaries, reflect such subsidiaries' current expectations as disclosed in their respective annual and current MD&A. Forward-looking statements are provided for the purposes of assisting the listener/reader in understanding the Corporation's financial performance, financial position and cash flows as at and for the periods ended on certain dates and to present information about management's current expectations and plans relating to the future, and the reader is cautioned that such statements may not be appropriate for other purposes. These statements may include, without limitation, statements regarding the operations, business, financial condition, expected financial results, performance, prospects, opportunities, priorities, targets, goals, ongoing objectives, strategies and outlook of the Corporation and its subsidiaries including the outlook for North American and international economies for the current fiscal year and subsequent periods, the Corporation's NCIB commenced in 2024, statements concerning deferred taxes, impact of the strategic partnership transaction in Power Sustainable Manager, the management of standalone businesses to realize value over time, the fintech strategy, fundraising activities and investment strategies of the investment platforms, capital commitments by the Power group and third parties, the objective to maintain a minimum level of cash and cash equivalents relative to fixed charges, opportunities for further value creation and the Corporation's subsidiaries' disclosed expectations, including in respect of Great-West and IGM's medium-term financial objectives, the ongoing obligations resulting from the sale of Putnam to Franklin Templeton and Great West's strategy of re-positioning its U.S. business as well as GBL's proposed dividend. Forward-looking statements include statements that are predictive in nature, depend upon or refer to future events or conditions, or include words such as "expects", "anticipates", "plans", "believes", "estimates", "seeks", "intends", "targets", "projects", "forecasts" or negative versions thereof and other similar expressions, or future or conditional verbs such as "may", "will", "should", "would" and "could".

By its nature, this information is subject to inherent risks and uncertainties that may be general or specific and which give rise to the possibility that expectations, forecasts, predictions, projections or conclusions will not prove to be accurate, that assumptions may not be correct and that objectives, strategic goals and priorities will not be achieved. A variety of factors, many of which are beyond the Corporation's and its subsidiaries' control, affect the operations, performance and results of the Corporation and its subsidiaries and their businesses, and could cause actual results to differ materially from current expectations of estimated or anticipated events or results. These factors include, but are not limited to: the impact or unanticipated impact of general economic, political and market factors in North America and internationally, fluctuations in interest rates, inflation and foreign exchange rates, monetary policies, business investment and the health of local and global equity and capital markets, management of market liquidity and funding risks, risks related to investments in private companies and illiquid securities, risks associated with financial instruments, changes in accounting policies and methods used to report financial condition (including uncertainties associated with significant judgments, estimates and assumptions), the effect of applying future accounting changes, business competition, operational and reputational risks, technological changes, cybersecurity risks, changes in government regulation and legislation, changes in tax laws, unexpected judicial or regulatory proceedings, catastrophic events, man-made disasters, terrorist attacks, wars and other conflicts, or an outbreak of a public health pandemic or other public health crises, the Corporation's and its subsidiaries' ability to complete strategic transactions, integrate acquisitions and implement other growth strategies, the Corporation's and its subsidiaries' success in anticipating and managing the foregoing factors, and with respect to forward-looking statements of the Corporation's subsidiaries disclosed in this presentation, the factors identified by such subsidiaries in their respective annual and current MD&A.

The listener/reader is cautioned to consider these and other factors, uncertainties and potential events carefully and not to put undue reliance on forward-looking statements. Information contained in forward-looking statements is based upon certain material assumptions that were applied in drawing a conclusion or making a forecast or projection, including management's perceptions of historical trends, current conditions and expected future developments, that any required approvals (including regulatory approvals) for strategic transactions, acquisitions, divestitures or other growth or optimization strategies will be received when and on such terms as are expected, as well as other considerations that are believed to be appropriate in the circumstances. Other considerations also include the availability of cash to complete purchases under the NCIB, that the list of risks and uncertainties in the previous paragraph, collectively, are not expected to have a material impact on the Corporation and its subsidiaries, and with respect to forward-looking statements of the Corporation's subsidiaries disclosed in this presentation, the risks identified by such subsidiaries in their respective annual and current MD&A and Annual Information Form most recently filed with the securities regulatory authorities in Canada and available at www.sedarplus.ca. While the Corporation considers these assumptions to be reasonable based on information currently available to management, they may prove to be incorrect.

Other than as specifically required by applicable Canadian law, the Corporation undertakes no obligation to update any forward-looking statement to reflect events or circumstances after the date on which such statement is made, or to reflect the occurrence of unanticipated events, whether as a result of new information, future events or results, or otherwise.

Additional information about the risks and uncertainties of the Corporation's business and material factors or assumptions on which information contained in forward-looking statements is based is provided in its disclosure materials, including its annual and current MD&A and its most recent Annual Information Form, filed with the securities regulatory authorities in Canada and available at www.sedarplus.ca.

Disclosures Concerning Public Investees

Information in this presentation and any accompanying oral statements, including in response to questions, (i) concerning Great-West and IGM, as applicable, has been derived from Great-West's and IGM's annual and current MD&As, as prepared and disclosed by the respective companies in accordance with applicable securities legislation, and which is also available either directly from SEDAR+ (www.sedarplus.ca) or directly from their websites, www.greatwestlifeco.com and www.igmfinc.com; and (ii) concerning GBL has been derived from publicly disclosed information, as issued by GBL in its fourth quarter press release at December 31, 2023 and its half-year report at June 30, 2024. Further information on GBL's results is available on its website at www.gbl.com. For definitions and reconciliations of non-IFRS financial measures, refer to the "Non-GAAP Financial Measures and Ratios" section and specifically the sub-sections entitled "Base earnings (loss)", "Non-GAAP Ratios" and "Assets under management (AUM) and assets under administration (AUA)" of Great-West's annual and current MD&A and "Non-IFRS Financial Measures and Other Financial Measures" section and specifically "Table 1: Reconciliation of Non-IFRS Financial Measures" of IGM's annual and current MD&A, which are each included in Parts B and C, respectively, of the Corporation's annual and current MD&A located under the Corporation's profile on SEDAR+ at www.sedarplus.ca, which sections, definitions, and reconciliations are incorporated herein by reference.

On a quarterly basis, GBL reports its net asset value as it represents an important criterion used in assessing its performance. GBL's net asset value represents the fair value of its investment portfolio, its gross cash, the present value of its Concentrix note and its treasury shares, less its gross debt. GBL's investments held in listed entities and treasury shares are measured at their market value, the present value of the Concentrix note is calculated at the market rate taking into account Concentrix's credit quality, investments in private entities are measured using the recommendations of the International Private Equity and Venture Capital Valuation Guidelines, and recent investments are valued at their acquisition cost, which represents GBL management's best estimate. GBL Capital's portfolio of investments is measured by adding all investments at fair value provided by the fund managers with GBL Capital's net cash, less its net debt. Sienna Investment Managers' assets are valued at the acquisition cost of the management companies, less, where applicable, impairments. For more information on GBL's net asset value and valuation principles, refer to its website (www.gbl.com).

Assets under management disclosed by GBL is an operational business indicator corresponding to assets in portfolio marketed by Sienna Investment Managers, whether Sienna Investment Managers manages them, advises on them or delegates their management to an external manager. It includes the NAV of the proprietary capital.

Note regarding Great-West's 5-year performance against medium-term objectives on slide 12. In calculating its 5-year financial objectives, Great-West made certain adjustments to its earnings. 2018 base earnings were calculated by excluding items from net earnings as discussed in the "Non-GAAP Financial Measures and Ratios" section of the Great-West's annual MD&A. In addition, Great-West excluded earnings related to the business transferred to Protective Life under an indemnity reinsurance agreement in 2019 to provide a more accurate comparison for the 5-year growth rate. 2018 base earnings were \$2,380 million and base earnings per share was \$2.41 compared to net earnings of \$2,961 million and net earnings per share of \$3.00. Items excluded from 2018 base earnings included a positive impact on actuarial assumption changes and management actions of \$616 million, a positive impact on market-related impacts on liabilities of \$29 million, restructuring costs of \$56 million, a legal accrual of \$13 million, a net benefit on tax legislative impacts of \$5 million and \$135 million of earnings related to the business transferred to Protective Life. For purposes of calculating the 5-year growth rate for base EPS under IFRS 17, *Insurance Contracts*, amortization of acquisition related finite life intangible assets of \$41 million after-tax was added back to 2018 base earnings. With this adjustment, 2018 base earnings were \$2,286 million and base EPS of \$2.31.

Basis of presentation, non-IFRS financial measures and other measures

Basis of Presentation

The condensed consolidated interim financial statements of the Corporation have been prepared in accordance with International Financial Reporting Standards (IFRS) unless otherwise noted and are the basis for the figures presented in this presentation, unless otherwise noted. The 2023 Consolidated Financial Statements of the Corporation, reflect the adoption of IFRS 17, *Insurance Contracts* (IFRS 17) and IFRS 9, *Financial Instruments* (IFRS 9) on January 1, 2023 that resulted in the restatement of certain comparative amounts.

Non-IFRS Financial Measures

Management uses these financial measures in its presentation and analysis of the financial performance of Power Corporation and believes that they provide additional meaningful information to listeners/readers in their analysis of the results of the Corporation.

Adjusted net earnings from continuing operations attributable to participating shareholders ("Adjusted net earnings") is calculated as (1) net earnings from continuing operations attributable to participating shareholders excluding (2) adjustments, which include the after-tax impact of any item that in management's judgment, including those identified by management of its publicly traded operating companies, would make the period-over-period comparison of results from operations less meaningful. Effective the first quarter of 2023, the Corporation introduced a refined definition of adjusted net earnings. This change is consistent with the introduction of a refined definition of base earnings (losses) by Great-West with the adoption of IFRS 17 on January 1, 2023. Adjusted net earnings attributable to participating shareholders includes the Corporation's share of Great-West's impact of market-related impacts, where actual market returns in the current period are different than longer-term expected returns, assumption changes and management actions that impact the measurement of assets and liabilities, realized gains (losses) on the sale of assets measured at FVOCI, direct equity and interest rate impacts on the measurement of surplus assets and liabilities and amortization of acquisition-related finite life intangible assets, as well as items that management believes are not indicative of the underlying business results which include those identified by a subsidiary or a jointly controlled corporation. Items that management and management of its subsidiaries believe are not indicative of the underlying business results include business transformation impacts (including restructuring or reorganization and integration costs, acquisition and divestiture costs), material legal settlements, material impairment charges, impacts of income tax rate changes on the remeasurement of deferred tax assets and other tax impairments, certain non-recurring material items, net gains, losses or costs related to the disposition or acquisition of a business and other items that, when removed, assist in explaining underlying operating performance. Adjusted net earnings from continuing operations per share ("Adjusted net earnings per share") is calculated as adjusted net earnings from continuing operations divided by the weighted average number of participating shares outstanding.

Adjusted net asset value ("NAV" or "Net asset value") is commonly used by holding companies to assess their value. Adjusted net asset value represents the fair value of the participating shareholders' equity of Power Corporation. Adjusted net asset value is calculated as the fair value of the assets of the combined Power Corporation and Power Financial holding company (also referred to as Gross asset value) less their net debt and preferred shares. The investments held in publicly traded entities (including Great-West, IGM and GBL) are measured at their market value and investments in private entities and investment funds are measured at management's estimate of fair value. This measure presents the fair value of the participating shareholders' equity of the holding company, and assists the listener/reader in determining or comparing the fair value of investments held by the holding company or its overall fair value. Adjusted net asset value per share is calculated as adjusted net asset value divided by the number of participating shares outstanding. The discount to adjusted net asset value ("discount to NAV" or "NAV discount") is defined as the percentage difference (expressed in relation to the adjusted net asset value) between the market capitalization of the Corporation and the adjusted net asset value.

Adjusted net earnings attributable to participating shareholders, fee-related earnings, adjusted net asset value, gross asset value, adjusted net earnings per share, discount to adjusted net asset value, and adjusted net asset value per share are non-IFRS financial measures and ratios that do not have a standard meaning and may not be comparable to similar measures used by other entities. Refer to the section entitled "Non-IFRS Financial Measures" in Part A of the annual MD&A located under the Corporation's profile on SEDAR+ at www.sedarplus.ca for further explanations of their uses and specifically the sub-sections entitled "Adjusted Net Earnings", "Adjusted Net Asset Value", "Consolidated Assets and Assets Under Management and Consolidated Assets and Assets Under Administration" and "Fee-related earnings" included in the section entitled "Reconciliations of IFRS and Non-IFRS Financial Measures" for the appropriate reconciliations of these non-IFRS financial measures to measures prescribed by IFRS, including those used in calculating non-IFRS ratios, which further explanations and reconciliations are incorporated herein by reference.

Other Measures

This presentation also includes other measures used to discuss activities of the Corporation's consolidated publicly traded operating companies and alternative asset investment platforms including, but not limited to, "assets under management", "assets under administration", "assets under management and advisement", "assets under management and advisement including strategic investments", "book value per participating share", "carried interest", "fee-bearing capital", "market capitalization", "net asset value", "unfunded commitments" and "weighted average management fee rate". As well, the presentation of the holding company is used to present and analyze the financial position and cash flows of Power Corporation as a holding company. Refer to the section "Other Measures" in Part A of the annual and current MD&A, which can be located in the Corporation's profile on SEDAR+ at www.sedarplus.ca, for definitions of such measures, which definitions are incorporated herein by reference.

Assets under management of investment platforms include: (i) Net asset value of the investment funds and co-investment vehicles managed, including unfunded commitments and permanent leverage; (ii) Gross asset value of investment funds managed within the real estate platform; and (iii) Fair value of assets managed on behalf of the Corporation and clients by asset managers controlled within the investment platforms, including assets managed through a separately managed account. Funded AUM represents AUM less unfunded commitments.

Fee-bearing capital includes: (i) Total capital commitments of venture capital, private equity, and certain private credit funds during the investment period; (ii) Net invested capital of private credit funds, funds which have completed their investment period, separately managed accounts within the credit platforms and certain co-investment vehicles; (iii) Net asset value of Power Sustainable China, Power Sustainable Energy Infrastructure including direct investments in energy assets, and funds within the real estate platform; and (iv) Invested capital or gross asset value of assets managed through separately managed accounts within the real estate platform.

Presentation of the Holding Company

The Corporation's reportable segments include Great-West, IGM Financial and GBL, which represent the Corporation's investments in publicly traded operating companies, as well as the holding company. These reportable segments, in addition to the asset management activities, reflect Power Corporation's management structure and internal financial reporting. The Corporation evaluates its performance based on the operating segment's contribution to earnings.

The holding company comprises the corporate activities of the Corporation and Power Financial, on a combined basis, and presents the investment activities of the Corporation. The investment activities of the holding company, including the investments in Great-West, IGM and controlled entities within the alternative asset investment platforms, are presented using the equity method. The holding company activities present the holding company's assets and liabilities, including cash, investments, debentures and non-participating shares. The discussions included in the sections "Financial Position" and "Cash Flows" in Part A of the annual and current MD&A present the segmented balance sheets and cash flow statements of the holding company, which are presented in Note 20 of the Interim Consolidated Financial Statements, and reconciliations of these statements are provided throughout the Corporation's annual and current MD&A.

Clarifications on Adjusted Net Asset Value

(i) The Corporation's share of GBL's reported net asset value was \$3.8 billion (€2.6 billion) at June 30, 2024; (ii) The management company of Sagard is presented at its fair value. The management company of Power Sustainable is presented at its carrying value; (iii) Sagard includes the Corporation's investments in Portage Ventures I, Portage Ventures II and Wealthsimple, held by Power Financial; (iv) Sagard includes \$22 million of cash held within the Sagard investing activities at June 30, 2024; (v) An additional deferred tax liability of \$10 million has been included in the adjusted net asset value at June 30, 2024 with respect to the investments in standalone businesses at fair value, without taking into account possible tax planning strategies. The Corporation has tax attributes (not otherwise recognized on the balance sheet) that could be available to minimize the tax if the Corporation were to dispose of its interests held in the standalone businesses; and (vi) In accordance with IAS 12, *Income Taxes*, no deferred tax liability is recognized with respect to temporary differences associated with investments in subsidiaries and jointly controlled corporations as the Corporation is able to control the timing of the reversal of the temporary differences and it is probable that the temporary differences will not reverse in the foreseeable future. If the Corporation were to dispose of an investment in a subsidiary or a jointly controlled corporation, income taxes payable on such disposition would be minimized through careful and prudent tax planning and structuring, as well as with the use of available tax attributes not otherwise recognized on the balance sheet, including tax losses, tax basis, safe income and foreign tax surplus associated with the subsidiary or jointly controlled corporation.

- Northleaf is a \$29B AUM^[5] global private markets solutions provider specializing in mid-market private equity, private credit, and infrastructure

[1] Available to common shareholders.

[2] Adjusted net earnings is a non-IFRS financial measure. Adjusted return on equity and Adjusted net earnings per share are non-IFRS ratios. Refer to the "Disclosures Concerning Public Investees" section at the beginning of this presentation. IGM's investment in Wealthsimple is recorded at FVOCI.

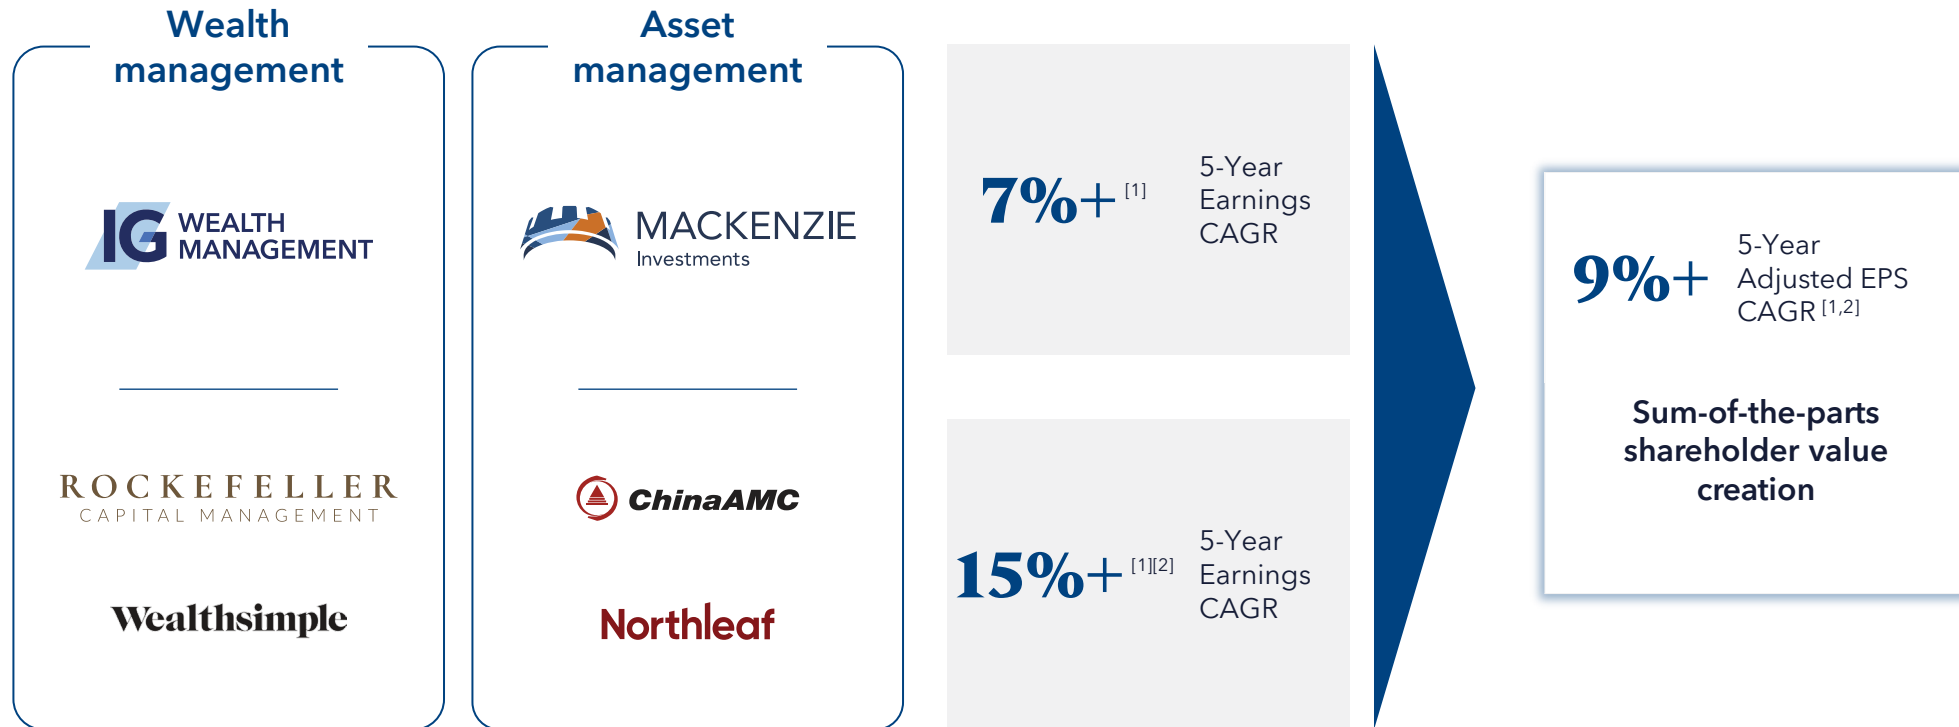

[3] Refer to "Other Measures" section at the beginning of this presentation for more information.

[4] Refer to p.41 of IGM's Q2 2024 Investor Presentation for more details regarding the composition and assumptions.

[5] As at June 30, 2024.

IGM announced medium-term objectives as part of its December 2023 Investor Day

IGM Financial 5-Year EPS Growth

[1] "Adjusted net earnings" is defined as a non-IFRS financial measure and "Adjusted EPS" is defined as a non-IFRS financial ratio by IGM. Refer to the "Disclosures Concerning Public Investees" section at the beginning of this presentation for more information.

[2] Includes share of Great-West's earnings contribution based on Great-West's June 20, 2023 Investor Day disclosures, and other portfolio investments.

IGM's strategic investments diversify and accelerate earnings growth profile [1]

ROCKEFELLER CAPITAL MANAGEMENT

- Target recruiting of \$120 million in annual production acquired [2]
- Target organic growth of 6-8% [3]
- Current capacity to scale and create operating leverage

Wealthsimple

- Strong historical AUM growth and target to reach ~\$100 billion in 2028
- Strategy for net client growth and grow share of wallet with existing relationships

ChinaAMC

- Expected industry AUM growth of 13-15% over medium/long term
- Maintain/gain share with demonstrated strong net sales

Northleaf

- Fundraising to drive AUM growth of 10% CAGR over medium-term
- Current capacity to scale and create operating leverage

Medium-term objectives & expected benefits

15%+
5-year earnings CAGR [4]

Sum-of-the-parts shareholder
value creation

Diversified source of AUM and
earnings

[1] This section contains information about IGM's forward-looking statements. See "Caution concerning forward-looking statements" in IGM's May 2024 Investor Presentation. Medium-term financial objectives issued during IGM Financial's Investor Day on December 5, 2023.

[2] Rockefeller Capital Management "production acquired" is defined as production directly attributed to the onboarding of acquired advisor teams, measured as trailing twelve-month revenue.

[3] Organic growth is defined as non-acquired client asset growth during the specified period. With respect to Private Wealth Management, this includes all transactions related to cash, dividends and transfers of assets, stocks and securities for teams on-boarded more than a year or with a 90% client asset conversion rate.

[4] Includes share of Great-West's earnings contribution based on Great-West's June 20, 2023 Investor Day disclosures, and other portfolio investments.

GBL is a leading and active investor in Europe, focused on long-term value creation with a diversified high-quality portfolio of listed and private investments, as well as of alternative investments through GBL Capital. Power holds its interest in GBL through a 50% interest in Parjointco, a strategic partnership with the Frère family.

of share buybacks since December 2018

Asset Management Activities - Building investment platforms to deliver recurring asset management earnings

- Through ownership in the GPs of Sagard and Power Sustainable, Power expects to generate a recurring stream of management fees and its share of performance-based carried interest, net of operating expenses

Investing Activities - Earning attractive returns on its proprietary capital across multiple strategies

- Power invests proprietary capital in the platforms' strategies to earn attractive returns and support their growth

Asset Management Activities – Building investment platforms to deliver recurring asset management earnings

Sagard and Power Sustainable continue to scale through different levers, generating recurring fee-related earnings

- Ongoing fundraising from third-party investors
- Launch of successor funds and new strategies
- Inorganic growth through acquisitions and strategic partnerships

Funded AUM [1]

(\$ in billions)

- 3rd Party Funded
- PCC Funded

	Q1 2020	Q1 2024	Q2 2024
Fee-Bearing Capital [1]	\$4.8B	\$25.8B	\$25.7B
Total AUM	\$5.6B	\$36.4B	\$37.5B

Carried interest represent a meaningful driver of value creation

- Power’s alternative asset managers are generating carried interest from strong fund performance to date
- \$154 million of carried interest has been generated based on Q2 2024 fair values

Carried Interest [3]

(\$ in millions)

Note: 3rd party funded includes associated companies (Great-West, IGM and GBL) as well as commitments from management.

[1] Refer to the “Other Measures” section at the beginning of this presentation for more information.

[2] 38% equity interest acquired in January 2024, including an exercisable option to acquire an additional 13% equity interest. Sagard also has a path to acquire the remaining equity interest in 2028. The Corporation determined that it has control of PEM and as a result has consolidated PEM on the date of the acquisition. The funded AUM of PEM of \$9.6 billion is included in funded AUM at June 30, 2024.

[3] Represents carried interest attributable to Sagard and Power Sustainable, excluding carried interest allocated to employees. Recognition subject to underlying accounting treatments. Includes the Corporation’s share of carried interest payable on its proprietary capital.

Asset Management Activities – Ongoing fundraising at alternative asset investment platforms

- 37.5 billion of AUM ^{[1][2]} as at June 30, 2024
- Over \$1 billion of fundraising in 2024 to date across multiple strategies
- Sagard entered a strategic partnership with EDC including a US\$250 million commitment to Sagard strategies over the next three years

Note: Converted to C\$ based on exchange rates as at June 30, 2024. AUM excludes private wealth platform. Included in 3rd parties are associated companies including Great-West, IGM and GBL as well as commitments from management.

[1] Refer to the "Other Measures" section at the beginning of this presentation for more information.

[2] Funded and unfunded AUM as at June 30, 2024 do not include funds launched or capital raised subsequent to June 30, 2024.

[3] Includes Power group's ownership in Wealthsimple valued at \$1.5 billion.

[4] Net of \$2.6 billion of project debt.

Investing Activities – Earning attractive returns on its proprietary capital across multiple strategies

Power's \$2.2 billion of proprietary capital targeted to generate 10%+ net returns

Strategies	Power Fair Value of Investments ^[1]	Target Net IRR ^[2]	Value Realization ^[3]
• Energy Infrastructure	\$955M	8-9%	
• Private Credit ^[4]	\$158M	8-11%	Expected to generate recurring returns on an ongoing basis during the life of the investment period
• Real Estate	\$30M	6-8%	
• Venture Capital	\$782M	12-20%	Expected to generate returns in the form of fair value increases
• Private Equity	\$285M	10-18%	<ul style="list-style-type: none"> • Cash generated as investments are monetized

[1] Power's investments as at June 30, 2024, excludes investments by Great-West and IGM.

[2] Illustrative target net of fees, carried interest and expenses and assumes no recycling / leverage at the fund level. There can be no assurance that the fund or any investment will achieve the targeted return. An internal rate of return (IRR) represents the discount rate at which the net present value of all cash flows equal to zero.

[3] Reported earnings profile dependent on accounting of underlying investments (consolidation, marked to market through P&L).

[4] Includes investment in Sagard Healthcare Partners.

Value Creation Strategy

Power has been pursuing a new value creation strategy since the reorganization announced in late 2019

- Focused upon financial services, not diversification
- Publicly traded companies investing organically and through active M&A to position for higher growth
- At the Power level, adding additional value through:
 - Simplifying our structure
 - Building the alternative asset management businesses focused on raising 3rd party capital
 - Monetizing other assets and returning capital to shareholders
 - Clearly communicating objectives, strategies and performance to market participants

Power group of companies' value creation strategy is focused on three key levers

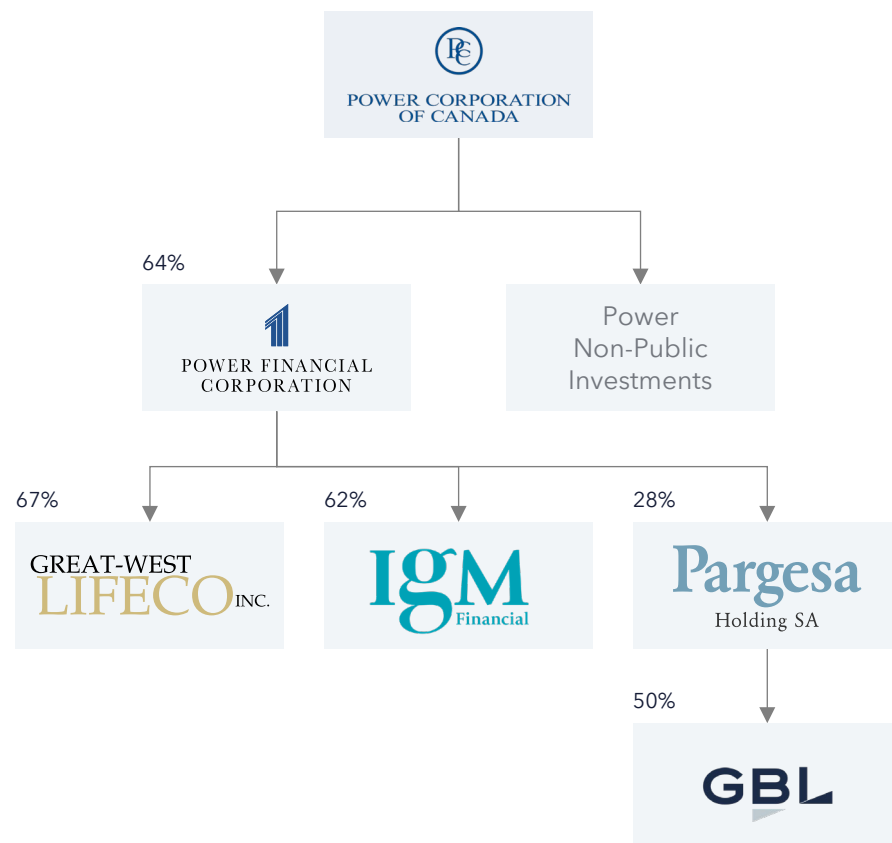

Value creation strategy launched during reorganization consistent with Power's key principles

Our key principles reflect the long-term orientation of the Desmarais family, controlling shareholders of Power since 1968

- Long-term perspective & investment horizon
- Build industry leaders with attractive growth profiles
- Provide active & strong governance oversight of our companies
- Strong financial position & prudent approach to risk management

Simplification of Power's group structure

Pre-December 2019 Reorganization

Present

[1] As of June 30, 2024. Power held 68.1% of Great-West; IGM held an additional 2.4% of Great-West. Power held 62.5% of IGM; Great-West held an additional 3.9% of IGM.

[2] Through a strategic partnership with the Frère family, Power holds a 50% interest in Parjointco, which held a 47.0% voting interest in GBL as at June 30, 2024.

Power has re-positioned its businesses for higher growth

U.S. Individual Life & Annuity Business

Today

2nd largest
U.S. retirement services provider ^[1]

[1] Based on Pensions & Investments DC Recordkeeper Survey (2024). Ranking measured by total number of participants as of December 31, 2023.

In Canada, Great-West combined its three franchises into Canada Life and has been investing to enhance product, distribution and efficiency

2020 Amalgamation
to simplify the business, unite its employees
and better serve its client base

Leading provider of insurance, wealth
management, and healthcare benefit products
serving 12 million Canadians

IGM owns leading wealth and asset management franchises in Canada and has high growth plays in the U.S. and China

Wealth management

- IG Wealth has strengthened its advisor force, product suite and technology platform for the benefit of its clients and to cater to the high-net-worth market

- In April 2023, acquired a 20.5% equity interest in Rockefeller creating an entry into the U.S., the largest and deepest wealth market in the world

- Wealthsimple's AUA grew to \$43.6 billion at Q2 2024, up 13% sequentially and 87% year-over-year

Asset management

- IGM's investment management functions were combined under Mackenzie in 2017. Mackenzie acquired GLC in 2021, further strengthening its position as a leading asset manager

- Acquired interest in Northleaf in 2020; launched numerous alternative investment products

- In January 2023, increased its ownership in ChinaAMC to 27.8%, enhancing participation in the Chinese asset management industry

GBL has embarked on an asset rotation strategy focusing on private and alternative assets

As at Q2 2024

- Close to €33 billion in asset rotation since 2012
- Investments in leading companies in their sector, with a clear and sustainable business model
- Focus on private assets to create a less replicable portfolio
- Shareholdings with influence in listed assets

- Creation of Sienna Investment Managers, a third-party asset manager, primarily through acquisitions
 - Strategies include listed assets, private equity, private credit, venture capital and real estate
- Rebranding of Sienna Capital to GBL Capital, dedicating the Sienna brand to third-party asset management

- Agri-Food Private Equity

Sagard pursuing growth through a number of strategic transactions

- In September 2023, Sagard closed new strategic partnerships with Lunate (formerly ADQ) and BMO, and expanded its partnership with Great-West
- Invested capital to support Sagard manager's future growth
- Partners also committed additional long-term capital to Sagard's existing and future investment strategies

- In January 2024, Sagard acquired a strategic interest in Performance Equity Management, a US\$8.9 billion AUM^[1] global private equity investment firm
- Allows Sagard to establish a fund of funds, secondary and co-investment platform

- In March 2024, Sagard acquired a 40% stake in HalseyPoint
- US\$3.2 billion^[1] U.S.-based collateralized loan obligations ("CLO") manager
- HalseyPoint's CLO strategy will broaden Sagard's credit offering which currently covers opportunistic credit and senior lending across North America

[1] At transaction announcement.

Power Sustainable strategic partnership with Great-West

- In May 2024, Power Sustainable announced a new long-term strategic partnership with Great-West
 - Enables Power Sustainable to accelerate its growth and market penetration in sustainable private equity and infrastructure credit
 - Supports Great-West's value creation strategy as part of a responsible investing transition
- Under the transaction, Great-West has:
 - Become a minority shareholder in PSM, owning slightly below 20% on a fully diluted basis
 - Agreed to invest in certain funds across Power Sustainable's investment strategies
- Partnership builds on previous collaboration, including Great-West's \$1 billion+ in commitments to the following Power Sustainable strategies:
 - Infrastructure Credit
 - North American Agri-food Private Equity, and
 - Energy Infrastructure Equity
- Power remains the controlling shareholder of PSM

Returning capital to Power shareholders

Approaching \$1 billion of capital returned to shareholders in 2024

(\$ millions)	2020	2021	2022	2023	YTD 2024
Dividends	1,081	1,211	1,331	1,374	708
Share Buybacks	193	153	415	583	189
Total	1,274	1,364	1,746	1,957	897

Power's dividends paid per share have increased for 10 consecutive years

- Quarterly dividend increased 7.1% to 56.25¢ per participating share in March 2024

Annual Dividends Paid per Share

\$ per share

[1] Assuming Power's Board of Directors declares the same level of dividend (as declared on March 20, 2024) for the remainder of the year.

Returning capital to Power shareholders (cont'd)

Capacity for further share buybacks

- \$1.5 billion of cash and cash equivalents at June 30, 2024, of which \$1.2 billion of available cash ^[1]
- Power generally targets to maintain minimum available cash of 2x fixed charges, currently approximately \$800 million
- Potential for additional buyback capacity through multiple sources of liquidity

While maintaining a strong financial position

- Power's prudent approach to managing leverage has contributed to strong and stable credit ratings, throughout economic cycles
 - S&P: A+ (Stable)
 - DBRS: A (Stable)

[1] Cash and cash equivalents plus IGM dividends declared and not received less Power dividends declared and not paid.

Power Corporation and its OpCos have elevated their communication programs with the investment community

POWER CORPORATION
OF CANADA

- Increased communication with stakeholders
- Launched quarterly earnings call in Q1'20
- Enhanced investment platform disclosure aligned with business model in Q2'20

GREAT-WEST
LIFECO INC.

- Base earnings metric, new segment disclosure and enhanced Source of Earnings disclosure in 2020
- Provided medium-term financial objectives of 8-10% Base EPS growth per annum, 16-17% Base ROE before M&A and a target dividend payout ratio of 45-55% of base earnings
- Disclosure enhancements made as part of the adoption of IFRS 17 and IFRS 9, including the introduction of three Value Drivers for describing its business: Workplace Solutions, Wealth & Asset Management and Insurance & Risk Solutions
- Supplemental Information Package format revised to reflect internal reviews and feedback received from the analyst community

IGM
Financial

- New segment disclosure introduced in Q3'20: Wealth Management, Asset Management and Strategic Investments & Other
- Introduction of adjusted net earnings and valuation by segment in Q1'21 to reinforce sum-of-the-parts approach to valuation
- Updated segment disclosure in Q4'23 to reflect alignment of strategic investments within its wealth and asset management businesses
- Provided medium-term financial objectives of 9%+ adjusted EPS growth per annum

Power's shareholder returns

Power has delivered strong shareholder returns in recent periods

Total Shareholder Return

As at August 31, 2024

Years	Last 12 Months	Last 3 Years	Last 5 Years
		Annualized	Annualized
Power Corporation	18.8%	4.0%	14.8%
S&P TSX Financials	27.3%	8.8%	12.2%
Over / (Under) S&P TSX Financials	(8.5%)	(4.8%)	2.6%
S&P TSX	18.8%	7.6%	10.7%
Over / (Under) S&P TSX	-	(3.6%)	4.1%

Source: Bloomberg.

Note: Total shareholder return represents share price appreciation and dividends received over a period of time expressed as an annualized percentage. Assumes dividends are reinvested in the shares when received.

Power discount to NAV^[1]

Power's discount to NAV has been narrowing through execution of its value creation strategy

[1] Discount to NAV is a non-IFRS ratio. Refer to the "Non-IFRS Financial Measures" section at the beginning of this presentation for more information.

[2] As at August 31, 2024.

Opportunities for further value creation

Power will continue to exercise its three levers for value creation, with concrete actions and opportunities available in the short to medium-term

1 OpCo Organic Levers

- Public OpCos positioned for organic growth:
 - Diversified, broadly-based growth at Great-West led by Empower
 - IGM well-positioned for growth in both wealth management and asset management
 - GBL repositioning its portfolio with a focus on growing private asset investments

2 OpCo M&A Levers

- Continued execution to realize benefits of recently closed M&A transactions
- Ongoing assessment of potential opportunities

3 Power Company Level Levers

- Return capital to Power shareholders through buybacks and dividends
- Opportunities for further simplification
- Continued fundraising at Sagard and Power Sustainable to realize the benefits of scale
- Continued communication with stakeholders
